The GRE Review Course examines the kind of information that is on the Graduate Record Exam (GRE) so you can do your very best.

The Quantitative portion of the course focuses on math and will help you understand the types of questions that are in the exam. Likewise, the Verbal portion of the class will help you develop strategies for solving the verbal reasoning questions found on the GRE® General Test. Practice questions are reviewed and discussed in both portions of the course.

The class uses The Official Guide to the GRE® General Test, which is published by the non-profit, ETS. And as stated by ETS, "It's packed with everything you need to do your best on the test – and move toward your graduate or business school degree". The text is included in the course fee.

Course Schedule
Mon and Wed • 6:30pm-9pm
